27 al 30 de mayo, 2009

Bienvenido

Deseamos invitarlo a participar en *GeoSummit*: Un Simposium Internacional sobre la Enseñanza y Aprendizaje en Geografía. Este es el 5to. Congreso patrocinado por el Centro Grosvenor para la Educación Geográfica. La presentación de trabajos y posters constituirán dos de las principales actividades. *GeoSummit* también ofrecerá a los participantes la oportunidad de compartir con numerosos investigadores internacionales los avances de proyectos en talleres de investigación.

GeoSummit Goals

1. To engage geographic education scholars and students in international collaborative research
2. To facilitate the development of emerging scholars and students through international mentoring networks.
3. To support the dissemination of high-quality research in geographic education

Conference Themes and Activities

- Building international collaborations and networks across the world
- Research papers in geographic education. See “Call for Papers”, Research Strands (visite sitio Internet)
- AAG Center for Global Geography Education Workshop
- Workshops for paper preparation for *Research in Geographic Education*
- Young Scholars Sessions
- Post-conference excursions and local field trips
